

Aerize Card Loader 2008

Premium BlackBerry Application

v1.0.0

Install and run applications from a SD card

Run games and software only when needed

Enhance BlackBerry performance

Get the most out of your BlackBerry device by installing limitless applications from removable media cards; the size of your SD Card is all that is left to worry about. This user-friendly app will install and remove applications on your device from any removable media card.

Requirements:
BlackBerry OS 4.2+

Installation and Registration

Its no secret mobile devices have little resources, and it's definitely true of BlackBerry devices. Running applications, storing files, and managing the system all use the same memory on BlackBerry devices. Unfortunately this limits the amount of games and applications that can reliably be loaded onto the device at one time. After you have installed Aerize Card Loader, this limit will be forever shattered, allowing you to load applications and games directly from a SD Card.

Installation

Its simple to install Aerize Card Loader, simply run the installer on your personal computer and follow the on screen instructions.

1. Connect your BlackBerry device
2. Run the Aerize Card Loader installation
3. Enjoy!

Registration

Aerize Card Loader has a fully functional 7 day trial. When the trial period has ended, you may purchase a Serial Code to enable prolonged usage.

1. Purchase a Serial Code
2. Open the Aerize Card Loader Options
3. Enter your Serial Code

General Usage

To use Aerize Card Loader effectively, you will need to determine which applications you would like to install on the SD card. You should select applications or games that you use infrequently, or take too much resources to warrant a full-time installation on the device. When you have selected the applications you would like to have installed to your SD Card, you will need to package them and setup Aerize Card Loader with those installations.

Configuring a SD Card with BlackBerry applications

Aerize Card loader will look for all of the COD files on the inserted SD Card in the root folder, and the /SDCard/loader folder. The files must be placed on the SD Card before they can be installed with Aerize Card Loader. Aerize Card Loader uses the COD files from a desktop installation, usually contained within a Zip file, with an ALX and a COD file. Aerize Card Loader can not work directly with a ZIP file, please see Aerize Explorer for Zip archive file manipulation and management.

1. Copy the COD file to the root or /loader folder on the SD Card
2. Insert SD Card into BlackBerry device
3. Open Aerize Card Loader, the applications are shown with a SD Card

Loading an Application from a SD Card

When you want to load an application onto the BlackBerry device, insert the SD Card with the application, and tell Aerize Card Loader to load the application. If you have not configured a SD Card with applications, please see the previous section.

1. Ensure the Application COD files is on the SD Card
2. Open Aerize Card Loader on the BlackBerry device
3. Choose the desired application, and select the '**Load**' menu option

Removing an Application from the BlackBerry device

When you want to remove an application to free up space on your device its simple, let Aerize Card Loader handle it for you. Applications installed on the device will not have a SD Card icon, select the application you want to remove and tell Aerize Card Loader to unload it.

1. Open Aerize Card Loader on the BlackBerry device
2. Choose the desired application, and select the '**Unload**' menu option
3. You may be prompted to reset your device when the application has been removed

Viewing information about a SD Application

Applications on the SD card are listed in the main screen of Aerize Card Loader, you can find out useful information about the COD files.

1. Choose the desired application, it should have a SD Card icon
2. Select the '**Info**' menu item.

Viewing information about a Device Application

Applications on the Device are listed in the main screen of Aerize Card Loader, you can find out

useful information about the applications. You can see the name, vendor, version, size, additional modules, and more.

1. Choose the desired application, it should not have a SD Card icon
2. Select the **'Info'** menu item.

Changing Aerize Card Loader Options

You can configure the way Aerize Card Loader works to suit your personal tastes. Depending upon your style, you may prefer to defer all reset prompts until you exit Aerize Card Loader.

1. Select the **'Options'** menu item
2. Change the options
3. Save

View the Event Log

Aerize Card Loader logs activities to the BlackBerry Event Log. You can view the event log with Aerize EventLog. You can change the amount of items logged to the BlackBerry Event Log.

1. Download Aerize EventLog
2. Install Aerize EventLog
3. View the BlackBerry System Event Log

Common Questions

Q. Why does my device have to be reset when I close the application?

A. Depending upon the application, it may require a device reset. You can set how vigilant Aerize Card Loader is with reset prompts in the Options.

Q. Can I make Aerize Card Loader wait longer before it removes the application from the device?

A. Yes, increase the Grace Period time in the options.

Q. Can I move applications from the device to the SD card?

A. No. Aerize Card Loader is unable to read the code for the currently installed applications on the device. You will need to supply the install files on a SD Card.

Q. What types of installs does Aerize Card Loader accept?

A. Aerize Card Loader can use COD files from desktop installations, or COD files from an OTA based install. You will need to repackage multiple OTA COD file installs inside a ZIP file and rename it to a COD.

Q. What applications work best with Aerize Card Loader?

A. Some applications can be problematic with Aerize Card Loader, if the applications start automatically; it may have a problem with Aerize Card Loader. The applications behaviors that are problematic with Aerize Card Loader are:

1. Automatic Start - Interferes with the auto-install functionality of Aerize Card Loader
2. Listeners - Applications that run in the background, waiting on events like email.
3. Native - Applications that use native interfaces

The best applications are well-behaved applications that do not run in the background and close cleanly.

Q. How do I put an Application COD onto a SD Card?

A. You may need to use another application to move a COD file to the device, Roxio's Media Manager is included with BlackBerry Desktop Manager and can copy a COD file to the device. Aerize Explorer can copy a COD file to the SD Card, and unpack it from a Zip file. Many desktop computers and laptops have build in SD Card slots that you can use to transfer files to the card.

Q. How can I upgrade my device software?

A. Follow the steps bellow:

1. Backup your device information
2. Download and Install the latest OS for your device.
(http://na.blackberry.com/eng/support/downloads/download_sites.jsp)
3. Upgrade you device, with the Application Loader from BlackBerry Desktop Manager
